**Subject:** Fwd: Bloom Excess CO2 emissions Above Permitted Amount  
**Attachments:** bloom red lion brookside delaware year 2020 CO2 for PSC baord.xlsx; bloom DE PSC money back order draft 12121.docx

The CRI must step up and push to get the DE PSC to claw back this money for ratepayers.

Mr. Kowalko and Mr. Lawson

I suggest that the Delaware House and Senate hold hearings on this matter, including bringing in US EPA staff to testify how Bloom and DNREC lied and colluded that they had "invented low carbon shale natural gas" PURE GREENWASHED LIES BY SRIDHAR, GARVIN. AND HOLDEN. Of course I am willing to testify under oath.

The email system at the US EPA now says Wheeler, Servidio, and Busterud are GONE FROM THE EPA. Yippy not a moment too soon they and Pruitt were 100% GANGRENE.

Bloom is a huge fraud. It is the TEAPOT DOME SCANDAL OF THE 21st CENTURY.

Theranos was the Bloom of Blood. Bloom is the Theranos of Thermodynamics.

I have the docket 21-0044 that Delmarva just filed with DE PSC.

The data for 2020 of the Bloom fraud in DE are now complete.

Bloom emitted 87,580.82 short tons of CO2 at Red Lion and Brookside Combined. The permitted combined amount of CO2 is only 84,315 short tons of CO2.

Now the DE PSC must act to get unpermitted money that Ratepayers paid in 2020.

Now the US EPA must fine Bloom for GREENWASHING

Now DE DNREC must fine Bloom for lying to them in obtaining two fake minor air permits.

Mr. Muller Bloom lied they would emit only 700 pounds of CO2 per megawatt hour. Actual average emissions for the year were 778.255 pounds of CO2 per megawatt hour.

I also do not believe that Bloom attained the 0.016 pounds of VOC per megawatt hour.

Mr. Regan

President Biden has said the GREEN LIES MATTER and that CO2 poses an EXISTENTIAL THREAT to us all. The Trump EPA under Wheeler was corrupt. We are all watching you to see if you are GREEN or GANGRENE.

Folks

In the next two weeks Delmarva will file the Docket with DE PSC that lays out the December 2020 actual performance of the Bloom Boxes in Red Lion and Brookside DE.

Bloom lied that 6.2 million BTUs of natural gas only emits 700 pounds of CO2. DNREC then set in stone within the permits for Red Lion and Brookside the maximum yearly tons of CO2 based on this lie.

If Bloom runs the power stations in similar fashion as they did for the first 11 months of 2020 then Bloom will over emit some 3,000 additional unpermitted tons of CO2. See the excel spreadsheet.

Mr. Winslow has been asked to prepare for the DE PSC to claw back some \$1,3 million from Delmarva that they gave Bloom unpermitted fashion in the year 2020.

I will prepare the order for the DE PSC as soon as I have the actual December 2020 operating data. Mr. Greer as you are a PE you can certify the calculations.
